Worldwide Logistics - Full On-site Service Package - Oil Analysis

In addition to the outstanding performance of PRESLIA turbine lubricants, TOTAL also provides essential services to ensure maximum reliability of your turbine. First of all, worldwide logistics through a single point of contact, ensuring PRESLIA turbine lubricants can be delivered anywhere in the world. Secondly, full on-site service package, including filtration, flushing and first fill operations added with turbine waste-oil management services. And finally, oil analysis to monitor the lubricant in service.
